Pursuant to the requirements of Chapter 180, Article II of the Brentwood Borough Code, any excavation of a Borough street requires a permit from the Borough of Brentwood. The contractor is required to restore the street to in accordance with Chapter 180, Article II Subsection G. The road surface restoration shall be approved by the Borough. The Contractor is responsible for the proper disposal of any waste material. The Contractor shall repair all damaged underground utilities at no cost to the Borough. The Borough may require a MUTCD-approved traffic control plan. The Borough requires the Contractor to submit a proper notice of a traffic control plan seven (7) days prior to the approval of street closures. **All work in the Borough requires utility locates (1-888-242-1776).**

It is understood and agreed that if the permit is granted, the undersigned will hold the Borough harmless from all suits and damages arising or resulting from the work.

**Note: The permit will expire 60 days from the date of the application unless otherwise stated. The contractor will need to resubmit for a new permit after that date.**

The undersigned hereby confirms he/she has received a copy of the Borough's Street Excavation Permit Regulations and Construction Standards. The undersigned understands the obligations set forth in these documents and agrees to comply therewith. Facilities constructed in violation of the conditions of this permit shall be corrected immediately upon notification by the Borough's Authorized Representative. The permit shall be kept with the individual in charge at the location where the work is being performed and shall be produced for examination upon request of any Borough Official.
